EMPLOYER NETWORKS

Employer Networks have been created to make it easier for local employers to access training, funded by CITB.

All CITB registered employers – who are up to date with levy payments, or exempt, can take part and benefit from the funding available... and there's no cost to join!

WHAT ARE THE BENEFITS OF JOINING?

- employers decide how funds are used and on what
- employers decide how much of the funds contribute towards each training need
- it's an opportunity to be part of an employer led approach to providing funding for training and skills delivery locally
- employers will no longer need to claim for training using the CITB grants scheme.

A FLEXIBLE APPROACH

Employer Networks are providing a more flexible funding approach than is available through current CITB funding routes.

- training isn't limited to a prescriptive list or restricted to a certain amount of financial support
- training doesn't need to be agreed up front
- Employer Networks are able to respond more quickly to changing local skill needs.
